From the Papers on the Sundial

We love catalogs. We especially love the catalog of catalogs. We figure you must be getting pretty desperate if you have to use a catalog to order more catalogs. So, with the end of the year in sight, we thought we would take a trip down retail lane to see what's out there, what's on the cutting edge, what we can buy for a fin or fiver or other words from the previous millennium. The answer: not much. If you can find a bargain, order two 'cause they're probably too small to begin with.

But we ramble on—kind of like in a grocery store where everything is at eye-level.

Anyway, enjoy the selection.

And just remember, if we stop shopping, Moriarty wins.
